

Overall programme

Monday 08 December 2014

Time	Event
19:00 - 21:00	 Icebreaker Drinks The Icebreaker will be an excellent opportunity to meet fellow workshop participants in a casual setting, with some good beverages. We chose a typical Dutch location, the Grand Café 'De Sjees', located in the historic city centre of Delft directly behind the City Hall. A great choice of restaurants to have dinner before the Icebreaker can be found nearby. The address of the Grand Café 'De Sjees' is 'Markt 5'. We are looking forward to welcoming all guests at the Icebreaker drinks on Monday evening from 7pm.

Tuesday 09 December 2014

Time	Event
08:00 - 17:00	 EGU Workshop Validation in Flood Risk Modelling (Day 1) On the first day of this workshop we will focus on the need of validation and available techniques with regard to the flood hazard (Session 1 - Hydrology and Hydraulics) and failure (Session 2 - Failure models). Beside the presentations there will be two comprehensive blocks for in-depth group discussions.
19:00 - 22:00	 Workshop Dinner Our workshop dinner will take place in the restaurant 'De Kurk' (Kromstraat 20), located in the historic centre of Delft. Further logistic information will be given during the workshop.

Wednesday 10 December 2014

Time	Event
08:00 - 17:00	 EGU Workshop Validation in Flood Risk Modelling (Day 2) On the second day we will have a deeper look on validation techniques for flood damages (Session 3 - Damage models) and the impact of uncertainties on the overall flood risk (Session 4 - Integration). Again there will be two comprehensive blocks for in-depth group discussions. We will close the workshop by a plenary discussion on the way forward including the main conclusions from all group discussions.
